ABOUT US

At Devine Elevators, we pride ourselves on being a leading force in the vertical transportation industry, dedicated to delivering cutting-edge solutions that elevate not just buildings, but the overall experience of those who use them. With a rich history, unwavering commitment to excellence, and a forward-thinking approach, we have become synonymous with innovation, safety, and reliability.

Our History

Established in 2012, Devine Elevators has grown from a humble beginning to a prominent player in the elevator manufacturing and servicing sector. Our journey has been marked by a relentless pursuit of quality, a passion for innovation, and an unyielding commitment to customer satisfaction

Mission

Devine Elevators aims to set new standards in the elevator industry, redefining what is possible through innovation, safety, customer-centric excellence, environmental sustainability, and a global Perspective

Vision

Devine Elevators' vision is to be a trailblazer in the elevator industry, propelling the world towards a future where vertical transportation is not just a necessity but a transformative and sustainable force for urban Living.

At Devine Elevators, we don't just move people; we elevate experiences. Join us on our journey as we continue to redefine vertical mobility with passion, precision, and purpose.

ELEVATOR TYPES

With our extensive range of elevator options and unmatched expertise, we are committed to delivering tailored solutions that exceed your expectations in terms of performance, safety, and reliability. We have a selection of different range of elevator types, each designed to provide safety, reliability, and Convenience.

HOME LIFT

1

The Home Lift is an elevator designed for home use, providing a solution for elderly and mobility impaired individuals to move freely and independently without the need for stairs. It is a modern product that can accommodate vertical mobility needs from the garage to the roof, allowing effortless movement.

2 PANAROMIC LIFT

Panoramic Lift are a prestigious and essential architectural feature in shopping centers, hotels, and homes, providing passengers with a comfortable and visually appealing experience as they move between floors. The panoramic view can attract more visitors and alleviate fear of confined spaces. From a commercial standpoint, these elevators can increase sales and improve a company's status.

HYDRAULIC LIFT

3

We are a top manufacturer, distributor, and exporter of high-quality Hydraulic Lifts. Our lifts are safe, affordable, and suitable for diverse customer needs. They are ideal for low-rise buildings and retrofitting older structures without the need for an additional machine room. Based in Odisha, we prioritize safety, functionality and customer satisfaction.

ELEVATOR TYPES

HOSPITAL LIFT

4

Hospital Lift , also known as Medical Elevators, have stainless steel interiors and subdued lighting to avoid disturbing patients. They are equipped with lower car buttons and wider doors for ease of use. Precautions are in place to ensure operation during power failures. These elevators are designed to swiftly and quietly transport patients and medical staff.

5 PASSENGER LIFT

Our Passenger Elevators offer high-speed performance and heavy-duty capabilities, with a load capacity ranging from 450 kg to 1600 kg, accommodating 6 to 22 people. They are suitable for a wide range of applications, including apartments, residential buildings, office buildings, hotels, shopping centers, transportation hubs, and public buildings.

GOODS LIFT

6

Goods elevators are designed to handle heavy loads with ease, making them ideal for transporting goods between different floors of a building. The dimensions of the elevator can be customized based on the capacity requirements. Rems Elevators offers a wide range of custom goods elevators to accommodate various size, capacity, opening, and configuration needs.
